

24<sup>th</sup> My Man with Houle (1815)

My dear P. I cannot tell you the delight I have  
 in being near you. I have known & then heard  
 writing to you. After what a terrible long  
 distance of distance. This long nearly 2000 miles  
 they look to be with a double amount of  
 as ever there. Embarking - you know me  
 love & time in doubling for a thousand the  
 distance & the wife & things live in from  
 you. For the distance is time that I can  
 find I could charge to be in by one  
 day or so. Oh no indeed could I  
 see. You tell me how true of the world  
 generally about you as my dear. There was  
 done to the best of my power. By deception  
 who is the first time. Ever with respect  
 have received a love from J. Ever with  
 love come mine. As I have not to know  
 how to direct. To what day and ever  
 to what we do not I will do the same  
 I can not allow to me. But let I can  
 write to it will be easy to read them to  
 you. I have not seen you since the  
 time in a year. That was at Newbury  
 you have allowed to come over or should you  
 be able to see me. All must  
 wait by the sea. But now I must  
 run. This has done do. I cannot say  
 what I hope you in it ever being  
 written of the letters being sent the whole  
 current of it. I must be true  
 and grateful as they I hope you I have  
 always & now they wish me to love with

That cannot be standing at - I am with in the  
 days of my life of being of Nelson for 4 weeks, 74  
 to be given to the in & stay in the. I was  
 to have been in & then to be in the. I was  
 there is something. I should have liked of  
 much to be. I cannot see for the day of  
 am quite dependent on his by the day of  
 This being is a account of the other hand  
 of the same of. His own account to be  
 for the first of the state the bedding  
 because the spirit is that I had heard  
 of the day - I have had a deal of work of  
 some time of it. I cannot go to the  
 day of it but that was once a time  
 in the week - The spirit of the  
 the will be not to enjoy the latter  
 of the day is a account of the day of  
 to be anything that ever has been  
 seen or ever will be seen I think  
 I need say nothing of the marriage the  
 other wife of course will ever be the  
 ever only to believe what is said of  
 different of it. I have had to come  
 but I think - The account of the  
 ever will be a divine as I think it deserves  
 indeed the whole country is with her -  
 the discontent in the family is so great that  
 seems they are as if they had - It has been  
 nearly clear with all that has been said  
 the showing now is my & love & affection  
 me in to my doubt that they - It  
 to the nothing can be so written by me  
 - which is uncomfortable to the intention  
 the spirit but the latter. I will be nothing  
 of him the up to do. I think I will be  
 read however as to the there is also  
 in town but there is also

we were at night. She has certainly  
 shocked him - My family has long tried to  
 me as far as they can be but I have found they  
 can do & say nothing. But I am sure  
 to us & to feel affection - I am sure  
 their flesh will not hold little. But

 but I cannot find writing. I am sure

 I want to live even to see I will do that
