 safe & that there is a new conveyance
 there is a matter of no small or secondary
 importance - nothing in future I
 will provide your correspondence of the
 same sort together - I mean to be
 through the post but I must be as
 you appear to have had a number of
 my letters peruse or answers to mine
 I can not be writing thinking it will
 help describe - when I find
 I have perused there is no other
 word I do not think to be in the
 or their thinking they are by me in
 I have said I have heard they are in
 the world I have & they have
 it. But the other people of their
 have insisted by unreliable letters
 - and see & they be circulated & misrepresented - I am afraid
 you as they fear that I have on
 anything of your letters either from
 Paris, Milan or Rome
 I am convinced too that had they
 received them I should have had
 them to their too honorable to help

the first thing I should like to see
is the printed text in French
why do the shadows not come
you & it appears very odd
in fact they have been
written in French but the

I hope to see you soon
