I come from a great dispute with that I have Stegerthal. I would not let her take that mount-bank prescription. She is well but I fear the return. if God restores her to me it is certainly to your friend that the Prince & I owe the obligation. as I find her soe well I cannot be a hindrance to the poor people from having the benefit of his salutary advice, but I earnestly beg that he will return soone sincerely all my confidence is in him. I am afraid for your health my dear friend take good care for the love of Caroline.
