

L^c 26

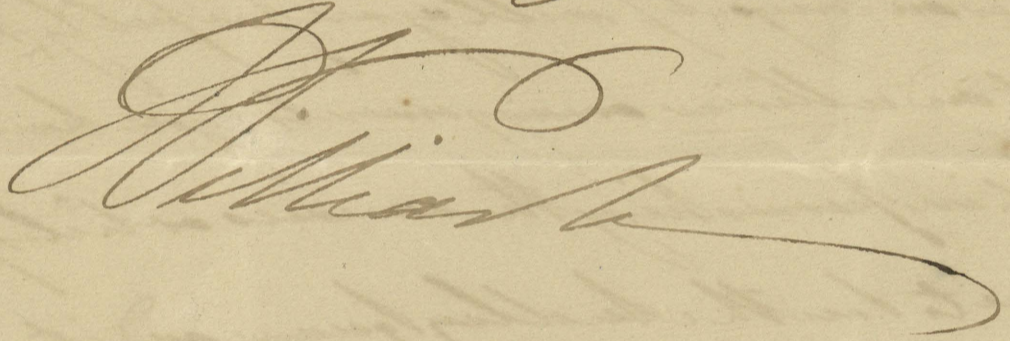

Hammer
Jan^y 10th 1819.

Dear Daniell,

On my return this day from Elle I
found your L^t: 23 and its usual enclosures which I
have signed: I am glad you have occasion to be inter-
fered with by the said Elphick: I make no doubt the
Parson and myself will agree perfectly ^{on} the inter-
gent and utriver arrangements: you have done quite
right in furnishing the various articles from Bushy
Horse to South Audley Square and it will be more
regular for Dr: Harper to visit me now what
may be wanted: I am not a little surpris'd at the
tenure being of an inferior quality: but highly ap-
prove of Dr: Oakes's attention and her reporting the
tenure as not being good: I send money by the bearer to my
agent or he comes this place tomorrow and shall be con-

us to have the opinion of Mr. Oak on what is now
 sent and also the sentiments of Mr. Boston on the
 whole quantity: I am very glad to see a review of the
 conduct of Mr. Oak and I make no doubt that the same
 sort of Allen will have a general good effect and
 ever believe me,

Yours sincerely

 William Pitt
