French 18: 1819.

Dear Daniell,

This morning has been taken from  
L<sup>o</sup>: 34 and its various and usual envelopes which  
I have signed: the explanation of the Farm Bills  
is agreeable as being Lepi: I am afraid Mr: Smith  
is too apt to be refractory and must be kept in  
order: you were right in thanking Lady Berkeley  
and giving the two pecunias to the Keeper: Put together  
a pound of the Treasury and being over in  
Buck: Wheat: under the unpleasant and difficult  
circumstances in which the order stands till  
After is removed you were right in permitting  
Copper to be discontinued: but he must return: I do

not recollect any furniture of mine being in the  
house of the gardener: the owner the new man  
comes the latter: adieu and ever believe me,

Yours sincerely

A. Williams
