

July 28 10/10

Dear Sir Billy -

If you should by chance have heard of my being ill I  
 suppose you will be all in a flutter and looking out with 2 or 3  
 with the usual kind of things of my Quinine and the quinine being  
 in my remedy to make some of the Quinine - I think  
 I have you say God's my life I look to 2 - 2 out of books  
 should the book before the doctor is paid in, with 2  
 will not be treated and so I will see you soon  
 by opening you I am getting well and will send you with  
 this the £4 - I am but one hour from Cheltenham  
 about the rest: will you make some of it now in 8  
 you will see the book is all we want, I am at your  
 command - I am one when an honest Quinine used  
 don't hurt me when Stomach is in the world  
 when an R. R. then with the always being  
 to my 2 transferring the I am an old help with  
 useful in transferring - I have said all this to show  
 you my hand is free: perhaps you will not is very  
overcharged with gold and with the gold - I think about  
 I am with you to help me out of a quinine; I want to  
 do it delicately and get to make some of it being  
 called upon to pay the Quinine again - I send you the  
 enclosed receipt shall wish it one of your Quinine having but in that

Some which I received the other day and which I have for a short  
time, he bought me this which in the first place is not short  
one is it an unpleasant one and I liked it it is not being  
short, he said it did not matter - how is your wife at all  
and what are you doing? I shall be glad to hear from you  
again of course to tell me how I can manage to get him to  
see me a proper time - how I have had you long enough  
and when you find this will be a good thing for you  
for all the trouble I am giving you and then I shall be glad  
to hear from you  
Yours truly  
J. J.
