My dear Lord

I received The Princess Charlotte's Commands some
time since to inform your Lordship & Lady
Ashbrooke of the result of Her Royal Highnesses
Confinement - It is with heart felt sorrow that
I have to inform your Lordship that Her Royal
Highness was ~~delivered~~ safely delivered of a still
born Male Child at 9 o'clock - Her Royal Highness
is as well as can be expected, & Her firmness &
conduct altogether has astonished Sir Richard
Crofts, & the medical men in attendance & I

My dear Lord

I had a letter written to your Lordship as soon as her
Royal Highness was delivered, this by her own command,
given to me, & written with her own hand - alas, before
that letter could be sent, the alarm for her safety was
given, & since that melancholy result, I have been
so much occupied, & so ill, that I have not had
power to write myself beyond absolute necessity.

That your Lordship & Lady Ashbrooke have been
neglected by me, not forgotten by the Princess -
was

Never surely calamity more conspicuous than this
that has befallen our Amiable Prince, never did I in
the whole course of my sad state witness such conduct,

Dear Madam

I have had the honor to receive your Ladyships letter & I am truly concerned to find that Lord Ashbrook still continues to complain, I can well understand what his sufferings have been, & I grieve from my heart that they should still continue -

The Prince continues without fever, his nights are restless, he takes but little food, & he looks extremely ill, but as he continues without any alarming symptoms, we trust to time, exercise, & change of scene to restore him to health, & comfort, tho I am persuaded that he never can erase from his mind the loss he has sustained, & which during life he will not cease to deplore - He takes two, or three hours exercise daily either on foot, or on horseback - He continues to dine in his own room with D. Stockman

and the two last evenings, The Baron - Sir Rob? & me have been commended to his room, where we have passed two hours each night - he talks of changes of scene, & his intention now is to go to Weymouth about Christmas to pass a month or two as well for Bathing, as retirement, the latter project will be better accomplished by having Karne at his command, & which S^r C. Damer has offered him - on the whole the Prince is as well as can be expected, & certainly without fever, or any other alarming symptoms - The Prince has insisted on me to remain with him which I shall be happy to do, the example of such a man before ones eyes is a constant source of admiration - Mrs. Campbell is still here - she is to take her time

for making her own arrangements, as also to finally close the concerns of The Prince - 'tis a sad blow on Her; The Prince will so far expose her cause, as to secure future provision for Her. Still the change for her will be materially attended for the worse -

I mean to go from this on Thursday next if all remains as there is the prospect of at present, I shall go to Town for two days, & then to Lady Pitt for a week - but this move must depend on circumstances -

I beg to present my respects, & best wishes to Lady Ashbrook, with the sincere hope, & wish for his speedy recovery. & have the honor to be

A l'approche de la fête

je m'empresse de te dire, combien je te
souhaite tout le bonheur, dont tu es si
digne; et que je me fais plaisir de
t'offrir un petit cadeau. Je te prie
chère maman d'être assez aimable

pour lui faire bon accueil; quoi qu'il se
 vaille pas grand'chose. J'aime à penser,
 que tu verras à quel point je suis sensible
 à toute ta tendresse; et je t'assure que
 je fais bien des vœux, pour que tes jours soient
 tous d'or et de soie. Veuille agréer aussi
 le bouquet que j'ai arrangé ce matin;
 je crains que sa fraîcheur ne se fasse

Madam,

The Queen, having been informed that your Ladyship wishes for the use of a Golden Chair has commanded me to say that Her Majesty has one but does not think that your Ladyship would find it comfortable, and recommends a Bath Chair in the Queen's possession which may be drawn by a pony or a man, ~~and~~ be conducted by the person who is in it.
