Packet L. 100

Lord North, The enclosed packet contains the Keys
of the Scutores at Carlton House, and of a press with
Glasp doors in the Tapestry Room at New that contains
the Keys to all my late Mother's Scutores in that
House. I desire you will direct Mr. Martin to go
and open them and any Papers that are in either
House to seal them up and transmit them to Me,
I shall this very evening examine if there are
Schedules of the Furniture taken at the death
of my late Father, though I rather expect not to
meet with it as I have already glanced them
over. I desire as time may be lost with regard to
New as I wish to begin to put things therein
order.
