

Ld. Holderness

15922

London April 27<sup>th</sup> 1775.

Sir

a letter I have received from the  
Bishop of London does me so much  
honour that I cannot refrain from the  
presumption of laying it before Your  
Majesty, as it is also justice to the  
Bishop that his strong and I am sure  
sincere expressions of Duty may be  
conveyed to Your Majesty in his  
own words.

a

a consideration which arises from  
the establishment for the Prince of  
Wales, makes me wish to take up a  
few minutes of Your Majesty's leisure  
when it may be your Royal pleasure  
to command my attendance.

I have the Honour to be with the  
most profound respect

Sir

Your Majesty's  
most loyal Subject  
most dutifully devoted  
Servant
