The Estimates delivered to the Prince of Wales by Colonel Hotham 27.<sup>th</sup> October 1784. by no means answer what the Paper delivered by Lord Southampton on the 13.<sup>th</sup> of March 1785. from the King to the Prince of Wales requires; indeed it shows there are Debts but no ways points out that the Works at Carlton House have been conducted with Economy; that what is still to be completed is void of profuseness <sup>and for what purposes</sup> nor is it any explanation of the same ~~worded~~; besides there is no Plan for reduction of expences to avoid future ~~embarrassments~~ <sup>embarrassments</sup>, and to establish a Reserve for gradually clearing the inordinate Debts that have been permitted to ~~increase~~ <sup>increase</sup> every man's hope of being discharged.
