

July 26. 1812

The paper enclosed, in the hand writing of Colonel  
Taylor, and signed by his Majesty, was received by  
me about the time of its date. Tho' I believe  
some form of Instrument was prepared in consequence  
of it, I believe that none such was executed by  
his Majesty. In the Interview with which I was  
honoured by his Majesty he mentioned the Subject,  
but never mentioned that he had, or when he  
proposed to execute any such Instrument.
