

Windsor Castle August 5th 1756

The King, not wishing to give Lord Eldon unnecessary Trouble, has preferred making a written Communication to him on the Subject upon which he saw him a few days since, which will put Lord Eldon in full Possession of His Majesty's Intentions in regard to the Settlements as above, which are,

That the House and Grounds and all within the Manor should upon the King's Demise be settled upon the Queen for her life, and should after her Death revert to the Crown. In this Settlements are not however to be included the Houses which His Majesty has purchased on New Green, which are to be disposed of in the following Manner. - There now in the Occupation of the Duke of Cumberland and Cambridge with the Ground belonging to the former to be settled upon them respectively. - That which was Mr Methen's to be settled on the Princess Sophia, and that which was Mr Gordon's upon the Princess Amelia, the Queen having the Use of these two during her life, as well as of the House and Yard now in the Occupation of the Board of Works which latter will revert to the Crown after her Death.
