Windsor July 6th 1811—

We the Underwritten Members of the Council, appointed to assist Her Majesty in the Execution of the Trust committed to Her Majesty by virtue of the Statute passed in the 51st Year of His Majesty's Reign Intituled "An Act to provide for the Administration of the Royal Authority" and for the Care of His Majesty's Royal Person during the Continuance of His Majesty's Illness, and for the Resumption of the Exercise of the Royal Authority by His Majesty" having duly met together on this 6th Day of July 1811 at the Queens Lodge, near to Windsor Castle, and having called before Us and examined upon Oath the Physicians and other persons Attendants upon His Majesty, and having ascertained the State of His Majesty's Health, by all such other ways and means, as appeared to Us, to be necessary for that purpose, do hereby declare and Certify that the State of His Majesty's Health at the time of this our Meeting, is not such as to enable His Majesty to resume the personal Exercise of His Royal Functions.

That His Majesty's bodily Health is but little disordered. —

That in consequence of an accession of mental disorder, subsequent to our Report of the Sixth of April last, a Change took place in the system of Management which had been previously adopted for His Majesty's Care: His Majesty's Mental Health is represented to us by all the Physicians, as certainly improved since the Sixth of April—

We are unable, however to ascertain what would be the Effect of an immediate recurrence to any system of Management, which should admit of as free an Approach to His Majesty's presence, as was allowed in a former period of His Majesty's Indisposition.—

Some of His Majesty's Physicians do not entertain hopes of His Majesty's Recovery, quite so confident as those, which they had expressed on the Sixth of April. The persuasion of others of His Majesty's Physicians that His Majesty will completely recover is not diminished; and they all appear to

agree

agree that there is a considerable probability of His Majesty's final Recovery. And that neither His Majesty's bodily Health, nor His Present Symptoms, nor the effect which the disease has yet produced upon His Majesty's faculties, afford any reason for thinking that His Majesty will not ultimately recover.—
