

A. L. to the North

July 17 1774

1852

Dear North, All that I meant was that two great
Chairs should be placed in the center of the school
just in front of the benches for the Spectators
for the Quire and some stools on each
side of the two Chairs for some of my Brethren
but I never meant to prevent the whole of
the performance being conducted exactly as
on other Occasions, this I trust will remove
any little doubts that may arise in Doctor
Davis's mind as to the mode of conducting
the Speeches on the Election
