My dear Sir

Having so often experienced
Your Royal Highness's kindness & attention
I address you under the confident hope that
should it be in your power you will most
readily lend me your assistance I will not
trespass upon your time by repeating to you
that which I have so often submitted to
your attention namely my limited fortune
nor will I mitigate those professions of regard
& affection both for His Royal Highness the
Prince Regent & yourself of which I have

already so frequently assured you & I trust every
action of my life has given proof. Your Royal
Highness was some years since kind enough to
intimate to me the propriety of Lord Gower's
who was then Minister recommending me for
the appointment to be one of the Lord of His
Majesty's Bedchamber. now my dear Sir perhaps
if you honored me by your kind recommendation
to His Royal Highness the Prince Regent
He might be induced to give me an appointment
in His Household an honor that would not only
improve my income but afford me the high
honor & gratification of being in the service of a
Prince I so sincerely love & revere. I have
the honor to be with great truth & sincerity
Your Royal Highness ever faithful &
 devoted servant
Wm York.
