General Liegt

acceptance of situation of  
Quorn of the Bedchamber

Dorchester House March 15 1812 -

My dear Sir,

Having left Ipswich some days, I had  
not the pleasure of receiving till yesterday, your  
most kind & friendly communication of the  
very honorable appointment The Prince Regent  
had been graciously pleased to confer upon  
me - From my affection & attachment to  
His Royal Highness, you can readily imagine  
how sensibly I feel his goodness, & how much I  
must regret that I am prevented by indisposition,  
from undertaking a journey to Town, which  
will oblige me to defer for some days my  
grateful acknowledgments, in person, to the  
Prince Regent, for the late mark of his favor.

I beg leave to request your good offices in ex-  
-pressing my gratitude to G. C. A., & explaining  
the cause of my absence — I am ever with sincere  
regard,

My dear Sir,

Most faithfully Yours.

Leigh
