My Sir

I wish you would be so good as to
learn whether H R Stephens has any command
for me to day, which should make it desirable
that I should wait upon him, because if he has
not, I should be glad to be excused attending
at the Council this day, as I have some expe-
riments of Bunnif which it would be inconvenient
for me to postpone -

I have with the same view stated on
paper two matters, which I wish with you to
bring under H R S's attention for his approbation.
I longer to mention them when I had waited
upon him -
