20033

The City Remembrancer presents his respectful Compliments to Mr. Addington, and understanding that The Prince Regent is expected in London this day, he requests to have the earliest information, of His Royal Highnesses appointment, to receive the Sheriffs, relative to the time for presenting the Address of the Corporation - if Lord Sidmouth should see the Prince Regent before the appointment is made, it will be desirable not to have it earlier than Thursday or Friday, as Wednesday is the first day of the Sessions at the Old Bailey, when the Sheriffs will, of course, be particularly engaged.

Guildhall.
Monday 14th Sept: 1812.

The Right Honorable
John. H. Addington
