20th Sept. 1812

My Dear Mr. Maken

There is some sorry to
say no good to be done by my remaining
at this place. The Party to whom
I have been sent down, are not only
pledged to Manning, but have
actually subscribed their monies -
And I been here three days earlier
or had any notification either of

my coming been sent down - or of
 that party the Ministerial Candidate
 he probably is that Government
 we have had two members returned
 for this place - and now from this
 splitting of the Church & State Party,
 which has taken place by their moving
 in despair of getting any person to oppose the
 progress of the down right Democrats
 (Commons) - it seems not improbable
 that they may not have one - Alas!

Under these circumstances having no
 ground under my feet I shall hasten
 back to London without delay - as

It need tend neither to usefulness nor
dignity - and also that I may not
be quite cut out in the general
scramble. I have left a very
active & sensible friend here to make
the most of any circumstances that
may turn up for the Government cause
but I am quite sure I have no
business to appear here at least to
continue to appear here - as Perry,
has been turned out - Mr. Bollen has
already, & indeed before I arrived,
here apprised Lord Lowther of the
changes that had taken place -

Hope the measures I have decided
on will be approved for and
remain my Dear Friend

Yours most faithfully

William Jones

P.S. For God sake, my Dear Friend, and me in
some other arrangement for of I am now
to be left out after all the hopes & fears
& joys - and after the various tantalizing
expectations which I have had. It will be
hard indeed - may it well be deserving
me in the eyes of the World - who will
not rightly comprehend this last operation.
