

Dr. H. Carey (Headmaster of West-
minster) to Col. Keble
Nov. 18 1812

20205

Dr Carey presents his compliments to
Col. Keble & hopes he will
forgive the liberty which he is now
taking in troubling him — But
the Prince Regent having last year
graciously condescended to express an
intention of honouring the Westminster
Play with his presence, Dr Carey, at the
same time that he is fearful of presuming
too much & of appearing obtrusive, feels
however that he should be wanting
in duty & respect did he not endeavour
to learn whether His Royal Highness

is pleased to entertain such an
intention this year — He will
therefore be very much obliged to
Col. McMahon if he will have the
goodness to ascertain for him the
Prince Regent's sentiments in any
way which he may judge most
proper & respectful —
