My dear Colonel McMahon -

How you must all be transported
at Carlton House with the news from
Paris! How gloriously the Emperor
Alexander has realized the title of
Liberator of Europe to which our
Reigning Prince drank his health
in the presence of all the foreign
Ministers. Pray show to your
dear Lady the enclosed verses -
which the second sight got printed
in the Pilot of the 30th March
the great happy day of Europe in
Paris. Adieu vale yours ever

P.S. the Prince was here for the last night
John Macpherson
