My dear friend

Let me by
you to forward the enclou-
-red. Tho' you, independent
of your packing it, there
is a better chance of its
reaching her than were
it left to be tipped about
at the India House. We

are all quite well & pre-
paring for an ascent of
the country. It will be
highly interesting, & will
not enable us to make
any useful arrangements
for the Company. I have
been able to give Vaughan
(the H. Walcott's brother) a
comfortable Zillah hospital
as he had been thrown aside

by Dr. Hinton, this is bringing
him forward rapidly.
We have few Constantia
people heard of your orders
-ful success, & are told
of the Allies in the heart
of France; but this, tho'
we knew it must be true
in the main, only excites
our curiosity still more.

For direct information.

The letters of the bears have
been given you the best that
is received. The increasing
effect of this on public
affairs is by no means im-
material. You are respect-

fully & affectionately
to the Prince & believe me
faithfully yours
Wm Pitt
