White-Knights

June 10th 1714.

Sir,

As I have been informed that
it is the Intention of Their Imperial
& Royal Majesties The Emperor of All
The Russias & the King of Prussia to
visit Aachen, I have taken the
liberty to convey to them how much
I should be gratified & honored
if Their Imperial & Royal Majesties
could make it convenient to them
to take some Refreshment at
White-Knights which is about half
way on their Journey to Aachen.

- Allow me to hope that Your
Royal Highness will not disapprove
of my Proposition. I entreat Your
Royal Highness to believe how
sensibly gratified I should be if
You would also Honour me with
Your Presence here, should Your
Royal Highness have it in contemplation
to accompany Their Imperial &
Royal Majesties on Their Journey
with very tenderest respects
I have the Honour to remain
Sir, Your Royal Highness's
most Obedient,
most Humble Servant
