

My Dear Sir

in looking over the schedule of Furniture it occurred to me that it was possible H.M. did not mean to part (in any way) with articles of virtue or parts of his Friends or family and if so that H.M. might not wish any value put upon them - at least I thought it best to take H.M. pleasure on the subject - I have therefore selected those Articles & enclosed a list of them - & will thank you to mark such (if any) as are to be reserved - I will thank you also to mention to the King that upon H.M. suggestion that the Scurf at Carlton House might be used at Buckingham House I prevented their bringing any more from Richmond Park which is attended with a great expence and I wish to know whether I may proceed to take up the Scurf at Carlton House as

The men who are laying the
Floor at Buckingham house are
not now going on with that work

The plates of the pavillion being
now all completed and it being
deem'd necessary that some Account
of the building should be made,
to accompany the work - I have
enclosed a few lines, but ~~to~~ which I
wish to be shewn to Mr. M - I have
avoided saying any thing that could
be considered as commendation, feeling
that self praise is always foolish &
have therefore confined myself to
what I think is necessary to guard
against any unfair Criticism - which
a building done by peace men would
otherwise be subject to - but if Mr.
has of slightest objection to what I have
said the next best thing to do will
be to say nothing at all

ever my Dear Sir

Faithfully yours
