

H. L. to Lt. Gen. Hawley

2724

Lieutenant General Hawley the enclosed Irish Returns
have arrived during your stay at Margate; I desire you will
give Desaguliers a hint that the Rain this morning was
the cause of my not calling to see his new Experiments with
Grape Shot; if there is a practice on Monday and the morning
proves dry, I will certainly be by half hour past Nine on
Woolwich Common; if he is not to have the Men out that
morning I will be there on Friday next; I desire to hear
from you whether they are to be out on Monday, and
that you will remind Desaguliers that as I shall come
unexpectedly, that he must be surpris'd at my visit;
I shall expect to find you near Chertsey
