

Lord North

Friday 9 Jan 30 1778

2773

Lord North has the honour of send-
ing to his Majesty a Draft of a Letter
which Mr Robinson intends to write
to Mr Wentworth with his Majesty's
approbation. Mr Wentworth must be
the purchaser & the Shipper of the
goods & must fix upon the consignee
at New York, who will continue either
to send the profits of the goods
themselves to Mr S. in Connecticut.

Lord North avails himself of the same
opportunity of conveying to his Majesty
several papers he has received from
Mr Wentworth. The most important are
Mr D's proposals, to which are added
some pieces of intelligence Mr W. received
from him. There is likewise a bundle of
letters which Dr B. sent to Mr W.
while out of England, & which are
not of much consequence now. Had
North been taken the liberty of sending
