My Dear Mr William
I must say a letter
received two or three days
ago from Mr Robert Supt
relative to a Box told at
Birmingham some containing
as it is supposed Papers
belonging to the late King.
And I am sure of the
Box about them on the
day before yesterday; and
I must say a letter received
from him this morning.

The person named by
him must be the same
who wrote the letter saying

It is unfortunate that he
does not give his address
with more detail.

that it would be desirable
to employ Mr. Taver
to make enquiries about
and to communicate with
him if he can find him.
He had better buy the case.
If it contains properly pay

of papers make him a
present of 50 £ for them
but and seal up the Chest
and send it to Spry Lane
tell you and I can examine
them.

our communication
I shall be in town tomorrow
and I saw Her going with
Dante I did not see her.
I shall pass through Whitehall
early on Monday if you
should be desirous of seeing
