Copy of a Certificate
in the hand writing of
the Rev^d W. Grosses Chaplain to
H. R. H. the late Duke of Kent. —

His late Royal Highness Prince Edward
confidentially made known to me, that a
female child was born of the body of his
Royal Sister in Law at Blackheath, and
that such daughter was educated under the
private auspices of the Princess of Wales,
that she bore the name of Edwardina; —
He further stated that the said royal female
was united to a Major Norman of
Brunswick, and that he entertained apprehensions
that much trouble and discussion would arise
if Edwardina insisted upon the rights and
privileges of her birth, as she was born

85078
in the pale of Westlock, and thereby
entitled to consideration.

I declare this to be a solemn fact as
stated to me by His Royal Highness
Prince Edward Duke of Kent.

Signed

W. Groves
