

Ld. Stormont
Dec. 27th 1779.

3670 St James's Dec. 27. 1779

The Landgrave's letter to your Majesty
is so friendly that it seems to deserve
an immediate answer. I have therefore
prepared a List which is here
submitted to your Majesty. By the
Landgrave's expression that he leaves
his Troops at your Majesty's disposal
I hope he means that they shall
be employed wherever you think
fit as well in the West Indies as in
North America. This is a point to
it was particularly recommended to
Genl. Pawlet to be attentive to, and
which I hope will now meet with
No

no difficulty. Genl. Pawlet who
purposely avoided taking leave at
court is to set out tomorrow and may
if yr Majesty thinks fit be the
bearer of yr letter to the Landgrave.
as Ld amhurst intimated to me the other
day that there may perhaps be some
arrangement taken for an increase of
the regular force in Scotland I could
have wished to defer the answer to
Ld advocate but as I have learnt that
some county meetings are appointed to
be held early in next month it may
perhaps be better that the answer to Ld
advocate should precede them
