Sir

I have receiv'd too many proofs of your Royal Highness's
friendship & regard to doubt of your attachment to me &
my family, it ever has been my wish to possess your good wishes
& esteem, as well as to render your Royal Highness every assistance
in my power — I have only to lament & however flatter myself
a mark of affection must be that any accident that may have
happn'd to me, should have occasion'd so much uneasiness
to your Royal Highness — I thank myself most infinitely
oblig'd to you for the pleasing intelligence you have been
kind enough to communicate to me of the health & safety

of Prince Frederick in whose welfare I most always feel
myself deeply interested. I am really in so much pain with
Anthony that I hope you will excuse my addressing more than
to beg your acceptance of my sincere wishes for ^{your} health,
prosperity, & happiness, & to believe me with the truest Attachment

In
your Royal Highnesses
most Dutiful
& affectionate humble Serv^t.
