Lord Hillsborough thinks it his Duty to acquaint your Majesty that so soon as the House of Lords was adjourned yesterday, He sent orders to the Commanding Officer upon Guard to double the Piquette, & to be ready in case called upon by the Civil Magistrate. returning home he observed a Fire in Warwick Street, which proved to be made with the Furniture of Count Haslang's Chappell. The same outrage had been before committed at Cordoni's Chappell, an order has been sent for a Guard to Belgiozoi's, Pinto's & Pignattelli's, & it is hoped no further outrages will be committed, All possible care being taken by Lord Hillsborough & Lord Hillsborough to prevent any.
