The Letter now submitted to your Majesty contains the substance of what appeared most advisable to L^d North & L^d Stormont with respect to a Business of too important a Nature, not to claim the utmost attention, tho there may not be any great prospect of success.

The conversation with L^d North which did not take place so soon as I expected from unavoidable Interruptions, forced me to detain the Messenger till this late Hour.

St James July 11th.
20th M. to Lord P. M.
