Dear Payne

Charlton Grove
Thursday

1797

You will I dare say be as much surprised
as I was this morning to hear it is per
Holland's opinion that Ten thousand
Pounds a Year will not pay H. M. H.
Heute Taxes & Repairs, I have desired a
Statement according to his Ideas to be ready
for us on Monday, on which we must
improve as at this Rate all Calculations
are idle. & the Patience of mortal Man
will at last be exhausted.

I am sorry Lord S. should have started
Difficulties or that the Prince should have
a moment's Trouble upon the Subject
as I can have no View, ~~for~~ But the Power

of arranging his affairs (that H. H. H. may
not be again distressed) & ~~as soon as possible~~
under whatever official name he shall think proper -

I suppose I shall find you at eleven
on Monday, pray send me back the Papers
that I had ~~had~~ copied for the Prince as they
must be copied again to insert the
official name they are to contain when
the Difficulties of Etiquette are arranged
I think I shall want the original
Estimates of Holland & Daquene.

Believe me

very sincerely
yrs. Most obedtly

If you go on Monday I ought to see you
before. - but I think this Foot will last.
