

W. Tierney to Col MacMahon

40353

Governor Mac
Monday night.

Sir,

on my return home I find a letter from
my friend which concludes, after making unnecessary
to trouble your Royal Highness with, as follows -

"The letter I wrote to Mr P. last Friday I suppose
"brought him & the Chancellor down yesterday. It was
"indications for Mr. C. to remain in Government.
"I shall be in Town on Wednesday but would not
"on any account give the P. so much trouble as to
"see me in secret, but if Mr. P. could see through
"Upper Governor Hall (the earlier the better) I would
"be at my own window to receive his commands on
"Thursday morning. Wednesday I shall probably be in

London

The house is the first one on the left hand side beyond Park Street.

I am Sir

Yours truly

John Lubbock
