Dear Brother,

I did not answer yr. Letter this morning
meaning to have call'd & to have done it viva voce
by saying yr. I certainly shd. go in state the first
time the Q. went & because yr. you wd. come
to my Box, but I believe yr. yr. Queen means
Wednesday & enight & not this Wednesday as
their Majesties are expected in Town the 7. day.
I wish'd particularly to have seen you today
as I understand yr. you are well & will call
for a few moments when the Q. is over in yr.
answer to the Queen you had better ask wh. Wednesday
she meant. I remain Dear Brother

Newmarket July 11th 1792

Dear Brother

Before I left London last Thursday I desired
General Lake to mention to you the absolute necessity
of your young horses coming up quickly to Newmarket
to be put into training, You are already two months
later than any other person, as almost every ^{year} two year old
are brought here to be trained about the second of May
meeting, and the General and I agreed that they should
arrive here on yesterday but I am understand from him
that you have wanted them to be again stopped till the last
week then, I think it right to represent to you, the great
detrimment you are likely to do to your horses by this, as
it will now be very difficult to get them ready by the
end of October, and should the winter prove a hard one,
we shall be obliged to force the horses in order to get
them in order for spring, which may do them a great
deal of mischief, I think therefore that unless you can

see them in the course of this week, I have had better orders
than to be sent here directly,

Mother Bunch to our great surprise
was yesterday, the fully stated, The Sultan fully out of
Kona ought to have been at least, Governor's men were
against her and knocked her quite out of the cause
and she thinks would have the other names again. As yet
We have been very successful, and Ralph is of opinion
that there are one or two other things we must do
this week,

Yours ever affectionately

Dear Brother

As I understand that you have left
London and therefore am not sure whether I shall see you
before Brighton horse races or not, I think you will be
glad to hear that yesterday I sold Serpent to Kelly, for
two hundred and fifty Guineas, I hope you will approve
of this as he certainly never could have made you a riding horse
and as his last running with Skylark was so exceedingly bad
that he could be of no more use in the stable. Cinderella
was lame and after a great deal of disputing with Thornbury
we agreed to let him have her at one hundred and fifty
Guineas the Sattam fifty out of Vertal was so very bad
that it was not worth while keeping her in training, and as she
appears to be likely to make some time or other a saddle
horse I have sent her up to Colchester House with the Volunteer
hormont of Miss Kelly, who will not stand training but yet
may be of use to you hereafter to ride, when he has been fixed
and turned out. We have in general been very successful
but Black Doctor who from his first trial appeared the best off

and young horses, when he came to me in publick would sell
me about; he is however so deeply engaged that we must
still keep him in training, and run him the next time without
trying him. The Flem filly ought to have won the July stakes
but Governor's filly won against her very soon after they
started, and she was would face the other horses again, I have
received on stakes for her better a very few pounds of whiskey
sufficient to pay the bills, and have now no more money of yours
on hand on the contrary you owe me something,

I understand that Brightelmstone runs on fair
for the 31st. I shall therefore come down to you on the 30th and Ralph
Dutton has promised to come with me, I have sent Whiskey and
the Annual horse out of M. Sedons to Brightelmstone, who I
trust will both arrive safe, and both win. Adieu I have not
time to add more, Believe me ever, Dear Brother

Nothing but business & the not having in
consequence a moment to myself for some days before
& ever since my arrival here, wd. have prevented
my thanking you for yr. kind letter, wh. I have
received everyone perfectly safe. I am extremely
glad our horses have been thro' safe & I did not

here in perfect health, & I flatter myself will
continue so as the weather is extremely favourable
& fine. As to the accounts respecting Newmarket
I must beg of you to be so good as to fill me

you please. I mean to be at Bayswater on Saturday

Dear Brother,

I in the course of a day or two you
 will have a visit at my desire from Lord
 Bunsford, who will communicate to you for
 yr. approbation & information some steps he
 takes in conjunction with William & John
 respecting our affairs, I did not dare to show
 a single sheet without yr. being thoroughly
 informed of every thing sh. sh. be impossible
 to do by letter, & as it is of the utmost importance
 & requires much conversation I regretted

4
to undertake a journey to Leiden in order to
put you to a fault on fault of every thing,
wh. He most readily undertakes both because
he considered it as essentially necessary to
the interests of us all, but also to have the
pleasure of seeing you whom he has not seen
this long time. You will be so good before
you enter into conversation with them, as to
recollect what the reputation of affairs was
when last I mentioned you to you at M^{rs} M^{rs}
& with what views I had sent for him out of
the country & went to meet him at St. Thomas
in Jersey, every thing by their advice has been

new change'd & the mode of proceeding quite different
 as to the motives & reasons, & even for the Proceeding
 themselves as they are now to be carried on I must
 refer you to Lord Sandon & believe me the reasons
 for the change will meet entirely yr. approbation
 as they have mine. I say here you need the
 less infamous Publication of the Jockey Club,
 upon any honor of Government do establish
 it up, I shall think it not only infamous
& profligacious to the greatest degree.
 but that it is their intention to throw upon
 instrument they thrust the hands of those
 unprincipled scoundrels who wish to mislead
 the minds of the ignorant vulgar, & to undermine

to involve this happy Country in a similar
war with France. Recieve my best loved
affection to the dear little Duchess, & tell her
I hope she likes the gown Mr. General Smith
was so good as to let me have for her, & Mr. Stuyvesant
to Mr. Mont's care for her, & to be so good as to
let her have her long black ^{hair}. I wish they were
at her for it will be necessary for me to send
her my letters for the King of Prussia &

Dear Brother

I have many excuses to make to you for not having answered your letter by Lord Rawdon but as I had explained to him fully my sentiments and opinion concerning the Business you entrusted to him I thought it better to wait till I could give you a exact account of your Affairs as we were not all to finish our voyage till this morning early in the Morning of the 22nd I had just of all began by looking you for off having won the great sweep stake with Whiskey, most unexpectedly indeed, for to our was currently taken against him this morning and though he had thought them impious and the bulk of the Affairs we could produce, he yet had a little hope, just however before starting, someone offered to be off the whole sweep stake, which confirmed every body in the idea that John Bull who had appeared going very pattering for some days would not run

 we could have no choice, but the Duke told me very fairly, given

 however upon finding that the Duke would not compromise
 with John Bull and on the Mary Colt when to my body

 hundred guineas in good pocket. Bowditch has had a dreadful

 that he fell off, he was taken up quite senseless but

Jeffrey's business, but I am afraid he does not now think to that
he at first said, however if it were possible to attend a short
delay, I think some fresh Proclamation will be thought on

tomorrow at Newmarket, for every horse to be ready to
come up at the shortest notice to London, Duke will
himself go over to settle every thing, As however it
would certainly be more advantageous for the sale to let
it be known for some days before hand, I see not help

Dear Brother

Ten thousand thanks for Your very kind and affectionate letters by Kennedy, for whom You have depend upon my doing every thing in my power, and the issue of the good or as well as the bad, will fully deserve whatever is given them.

With regard to the conversation You had with Crawford concerning what You wished to see my sentiments, I must confess that it is improper for me to give any opinion at all, for reasons which must be obvious to Yourself, besides that the whole depends entirely upon His Majesty's pleasure.

Larkin has explained to me this conversation with You, at this moment I see not but think it a very advantageous project for both of us but I am in such a situation ^{that I see not why} ~~at this moment~~ the business will

I have consulted them the have the management of my
affairs, which I will do by the next post.
