Dear Mother,

I take the earliest opportunity
to inform you, that Lord Liverpool called upon
me this morning to communicate to me
the arrangements which are proposed to be
made for the care of the King's Person - as
well as for the future Establishment at Windsor,
and though I have already expressed to you how
truly sensible I am of the confidence which you
are so good as to place in me in selecting me
for that important charge, yet I trust that you
will excuse my repeating it again, and assuring
you of the zealous care with which I shall
execute the duties imposed upon me -

In regard to the proposed allowance of Ten
Thousand Pounds - from the manner in which
Lord Liverpool put the subject to me - joined to
the fear of creating any of the Embarrassment

The Prince Regent

which

which you appear to apprehend might
arise from my refusing it, I have determined
to waive any objections -

Lord Liverpool has desired me to
mention to you, that there is a vacancy
in the Council which it will be necessary
to fill up in the Bill which is to be introduced,
and having selected certain names among
the Members of the Privy Council who appear
to us most eligible, we wish that you would
signify to me your pleasure as to the one
you would prefer to fill it -

The sooner you convey to me your
determination on this point the better, and
Lord Liverpool begged to add, that the
name must be inserted in the Committee
which will be at latest on Wednesday -

I am rejoiced to have from Sir Benjamin
Bloomfield, that you are so well, and shall
not fail to avail myself of your kind invitation
again to Brighton the week after next. -

Dearest Brother,

It is with the sincerest regret that I take up my Pen to inform you of the melancholy state in which I found our beloved Father and King yesterday - Though the Reports which I received daily from Windsor mentioned his increasing weakness, yet there was nothing in them which led me to imagine that there existed any immediate Cause of alarm - But alas, upon going into the Room yesterday, I never was more shocked than in perceiving the melancholy alteration which has taken place in him during the ten days that I have not seen him. - The degree of weakness and languor in his looks and the emaciation of his face, struck me more than I can describe -

All the Physicians, as well as Lord Arden, who has been in attendance since last Sunday, assure me that this great alteration has taken place since last Sunday. -

The Report of this morning is rather less
favorable, but the Physicians all agree, that
unless a change takes place, which is hardly to be
expected at his age, he cannot last much
longer.

In consequence of this, I have given

is wished to cause as little alarm as possible, I
have not fixed myself at Wicken, being always
ready to go there at a moment's notice.

My dearest Brother,

Although I succeeded in Blunfield
to answer your official participation
of the Death of Lt. Mearns, & giving my
sentiments to the Surgeon as recommended
by You, I seize this opportunity to express

nity, & without which from sheer ignorance

slipped through our fingers, except I had
I have been bestowed, upon a Mr. any Body,
whom nobody knows, & nobody cares, except
for the purpose of some worthy Fel; it is therefore
quite a delight to me to think that our worthy

of our affection, regard, & even friendship
that could be unobscured together in it,
I mean a phrase que je lui ai bien lue & lu

same decision which would ~~be made~~
take place, with respect to any other
man, who should unfortunately resign
himself, as this Mr. Davis has done, that

individual from his very situation, is
called upon so frequently to be in the presence
of his Sovereign, ^{is supposed} not even ^{unanimously} ~~to be~~
in a great degree, to be ^{unanimously} responsible for the
safety of the same Person. I think that
this is quite a narrow ground for ^{unanimously}

satisfactory. You are really enough
my dearest Frederick for you, but I never

can say enough nor often enough, how delighted
I am about our little George, & to Him only

best summer wishes of his old friends, who

to Him, as truly, the very sincere regard
I have felt for him since he was born
Yours immeasurably, for himself, as well as
for his poor dear Father, who had your
permission to be a Treasurer, which both
was himself. You know dear Mr B either
how I love, & how steady the affections of
my heart, are, & how immeasurably they always
will be, to my true & dear old friend, & how
with that best of feelings I write a com-
mune to you, & you will best know how
to appreciate the truth of all that my
Heart & paper. One word more about our
good little young friend, mind that you
tell Him (I have I desire was his talents
to make a little for your ~~own~~ ^{own} ~~self~~
& my interest) that I want to call upon
Him to put forth his playful genius

upon the present occasion, even upon me,
 & perhaps even in the shape of a Poem,
 only that I am afraid that his answer
 would be, "No that is impossible, for
 'The King is not a Subject.'" Now do not
 dearest Brother forget, this little however
 though I am too busy to deliver it as
 my own, for I am afraid that it belongs
 to my late old acquaintance the Duc
 de Bievre) as I think it never wants
 a laugh when you meet. I do not see an
 unpleasant reminiscence of those ancient
 days, to which I have ^{with satisfaction} referred, in a former
 part of this very long search, & which
 being of the very ancient date, bears the
 that it is, reminds me that it is high
 time, for me to bring it to a termination
 which I now do, with a thousand apologies
 for all its corrections, & I am afraid some

must attribute to the immense ^{interference}

My Aff. Friend,

Our letter must have crossed upon
the Road, & by this time mine of Yesterday will
have reached You. I am persuaded that You
will immediately enter into the view I have
taken of the individual to be selected upon
the present vacancy, ^{& remained} by the Death of poor Gwynne.
In the want of Lord Harcourt's Acceptance, I equally
persuade myself, that Lord Pembroke's Justice
& his pretensions to the 16th Regt. from his having
served so many years in that Regt. would ren-
der it a peculiarly gratifying Appointment
to Him.

In You privately, I must feel that
this is, not just the moment to bring Gen. L. Liffers
forward, because, I am sure, that You are not

aware that though Gen^l. Leffler is admitted to be
a good supporter of Gen^l. his conduct, upon a
former delicate occasion was highly offensive
both in a public & private point of view.

If the Gen^l. of Sherman is at all
equal in value to that, which I authorized you
to promise to my much valued friend, & faithful
servant, Mr. Wm. Peppell, on the demand of
Mr. Ben^l. Sarteton, in that case I would select
him; but if not, perhaps, you will see no
objection to my making choice of your & to

myself shall be most happy to manifest

My dear Frederick,

I received your military communications, late last night through Mr. Peel; but I should have been more satisfied, had they reached me directly from yourself.

I have no doubt, that all your intentions, are under the influence of some of those motives, which you deem at the time, to be for the best; but how the Lord's anointment can judge of those qualities of mind, combined with the military abilities, that are to fit him, at such a particular moment, for the command in Ireland, I

really am at a loss to guess, but the same
I now, I quite approve that no General
should be sent to Ireland, that would
be likely to be disagreeable to the Lord
Lieutenant. A useful name, however
should be fix'd upon, & one that combines
the various necessary qualifications for
the situation, but what is the use of
beg to know, of submitting three names,
two of which are totally unfit for the
object in view. Sir Jas. Ansell, is
certainly the properest Person, & this
I am sure you will agree with me,

With respect to the other Promotions, I was in hopes, from what pass'd betwixt you & me, upon the late Promotion of Sr. H. Jermyn Diligent. Bayly, that I should not, in the present occasion have had two names submitted to me, but that Sr. Andrew Burrell's, would have stood alone. This is the more painful to me, as Sir D. Peck is also particularly respected by me, as a Person whom I much esteem.
