My dear Frederika,

I have some matters of business to talk over with You, & which can be much better arranged, as they are on different heads, by ~~personal~~ personal interview than by correspondence by letter. I must entreat of You, therefore to make me a short visit for twelve hours, as soon as it may be convenient to You. It has struck me as Tuesday is my Birth Day, perhaps You might prefer to come dine & sleep at the Lodge on that Day, which will give me the greatest pleasure; but pray do not do this, if it is in the slightest degree inconvenient to You, or that <sup>it</sup> should interfere in the least, with any of your plans or engagements, as any other Day, will do.

quite as well for me. Believe me, my dearest  
always,

Your affectionate Brother

Dear Brother,

It is with sincere regret that I have to have  
to report to your Majesty the death of my  
very worthy and excellent friend General  
Lord Bridgewater, to which event the Command  
of the 14<sup>th</sup> Regiment of Light Dragoons is become  
vacant, and by leave to lay before your Majesty  
the names of the following General Officers who  
appear to me to have the fairest claims to your  
Majesty's favor upon the present occasion. They  
are Lieutenant General James May, Sir George  
Anierandhi John Vandeleur, or also Major  
General Sir Colphons Grant.

Lieutenant General James May is a very  
old and meritorious Officer who has constantly  
served and with distinction in the Cavalry still

He has placed upon the Staff as Adjutant  
General, from whom Your Majesty would not have been  
induced to remove him without placing him at the  
head of a Regiment of Cavalry, if the honour had not  
taken place upon the general re-arrangement of the  
Staff at the Peace.

Lieutenant General Sir George Anson and Sir  
John Vandeleur both served during the last War  
and were reduced to Colonel of Regiment, ~~and~~  
with the merits of Major General Sir Collyer Grant  
I know not how one too well known to Your  
Majesty for it to be necessary for me to recall  
them to Your Majesty's memory.

My Dear Brother

I cannot sufficiently express to you the pleasure I really feel that I have it in my power to transmit to you the sum of fifty thousand pounds, which I have raised on my Hanover Income for your benefit.

You know well the real brotherly affection I have for you, & when I venture to hint to you, to lay aside those collateral expenses which are generally continued from the influence of habit, I am sure you will not  
 be misled

to me it unwise; because had I myself  
continued on the Staff &c, it might  
have been difficult, without great  
inconvenience to the Country, for me  
to have fulfilled the high Duties  
of my present high Station -

In this suggestion I have no motive,  
no feeling, but what arises from  
the purest source; do not therefore  
answer this, nor recur to it in  
Conversation, because I wish that

Perhaps, as You are to be in

convey to you with her affectionate regards, her best thanks  
for your kind consideration of the circumstances under  
which she may be placed by the death of Mr Scarlett, should
