Most Gracious Sir

I think with regard to Mr Dyson, that as Your Majesty seems to consider Your Ministry as not able to continue, It would not be a proper thing to remove him, for that may tend at the close of a Session, to imply an Approbation which Your Majesty doth not seem to entertain; But on the other Hand, if you intend them to go on with their present Business they must have, for they want, all Support.

I return Your Majesty the Papers & have desired  
Your Obed
