Bushy House.
March 27. 1830.
New York Light P. M.

Dear Sir,

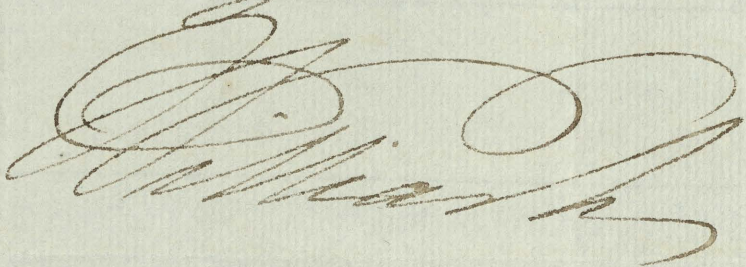

I am sorry to hear of this news from
Windsor but it has just reached me and I
must begin by stating that I am not having a key
I was under the necessity of having the
lock which I have stated to the individual
by the name of Baker who signed the order
for the loading to bring the Bay to me from
Pall Mall.

Considering the reason has been as extraordinary
as mine and may therefore account for them.
I have a great interest in the ship's system not de-
-maring it but to be good. I shall be an

- since to hear the sentence to go to Henry
Halifax.

I was astonished to see in the papers of this morn-
-ing that the Duke of Cumberland had departed
- day morning by sea at Windsor and your
account of the interview I am sure is correct
and indeed stands to reason with any one that
has common sense or with a person that would
give himself the trouble to think for a moment
wherever it is paid to one who is indisposed.
However the conduct of the Duke of Cumberland
is different from that of any one else, whether
to them or what concerns himself.

I trust your next account respecting the King
will be such as you may wish to mention
the mean time I must be desirous of being in-

I found how His Majesty finds himself and
I have entrusted in your hands the propriety of
delivering ~~any~~ message from me because
I am relying in your sound judgment as to the
proper manner to make known to the King
the necessities and circumstances he must address
- this to me being quite well and able to receive
the news of the peace and dancing Queen
I am, believe me,
Dear Sir,
Yours truly
