

Ld. North

Mar. 9. 26 1782

4547

Lord North has the honour of informing his Majesty that Lord Hillsborough called upon Lord North this morning to talk with him upon the subject of Lord Brouncker's corps, & to express his wish that some step may be taken in that business immediately.

Lord North says to mention to his Majesty that Mr Crespien his Majesty's Proctor, had hope his coming into Parliament an annual payment of £200 a year, In consequence of Election assistance he was to have had 400£ but could not hold it in Parliament & therefore, has never received any sum

the General Election, & therefore wish'd either  
to have a pension of £400 to his wife or  
to have the salary annex'd to his Office.

Mr Mayor has a claim upon the Public  
for very diligent labours, & very essential  
assistance in amending the Post upon paper.  
Lord North has not been able to reward him  
& therefore thinks himself oblig'd to state  
his merit to his Majesty.

Lord North hopes that his Majesty  
will forgive his troubling him upon so  
many subjects, but he does no more than  
what justice requires him to say, before he leaves  
his present situation.
