Sir

Her Royal Highness the Princess
Charlotte has been ill of a long & cold, &
I have been confined to my room with a
sore throat again, with a violent
cough which has prevented my being
able to make out a list for your royal
Highnesses approbation before I sent
the commands for the Princess Charlotte's
party on Monday Coak. I submit to your
Royal Highness the enclosed list, &

humbly beg the favor of your Royal
Highness to write "Yes" or "No" opposite
the names, as the most easy of showing
your pleasure - It is at present difficult
to select the young Ladies that are
known to your Highness that I could not
well for the first time, & I could not
(tho' your Royal Highness is so good
& gracious to confide in my discretion
on the occasion) be satisfied on the
subject till your Royal Highness had
seen the list. I have every ^{satisfaction} in the
conduct of Her Royal Highness & I am
