

[Mar. 9. 1815]

I would have replied sooner to your Letter enclosing that intended for your Mother, but you can easily conceive how much I must have been engaged.

You could not suppose how ^{very} My Dearest Child ^{is} ^{concerned} if I had decided on this mode of intimating ^{to} your Mother the ~~the~~ determination of ~~not sending your Mother,~~ which you expressed to ~~me~~ ~~of not sending it~~ ~~to~~ me that I could have allowed the letter to go as you have drawn it up.

I don't suppose you ^{or} that you are aware of it meant it, but when you have it pointed out

out to You You will
readily perceive that Your
manner of expressing Your
self would lead to the
supposition that I had
either found out a Cor:
respondence or had ~~discovered~~
~~it~~ a discovery
from You (rather of which
is the Fact) and not that
You had voluntarily and
without my knowing any
thing of the matter, privately
disclosed it to me.

I need not however
burden upon Miss now as
I have suspected any com:
munication ^{upon this head} for the present,
that it may be well con:
sidered how it can be
made correctly consistent
with what has really
passed and calculated
for securing most effectually
Your Happiness and
well

will doing.

P.S.

I have read your note
about Warwick House
and the orders shall
be given directly.
