

Lady Berkeley

51006

My Dear Friend
I have received
the enclosed from ^{Col^t} Berkeley
I need not tell you that all my
happiness consists in promoting
the Welfare of my Children -
I have written to the Duke of Clarence
he was always kind and good to me,
and I am sure he will assist me
if possible - I have desired his Royal
Highness to make my wishes known
to the Prince Regent and you -
also my Dear Friend what an
opportunity this moment would
be, if the Prince Regent would
send my Eldest Son Abroad on some
pretence - that he might confer
some honour on him - some act
of Justice - to soften the injuries

so cruelly cast upon him -
I would leave Berkeley House - I would
do any thing to soften his situation
till Monton comes of age -

God bless you,

Send me if you can, indeed
I know you will -

And I am ever
your affectionate friend.

M. Berkeley
