My dear Brother

Permit me to return you many thanks for the kind interest you take in my situation and be assured that no one is more grateful than myself for your affection and I am too well acquainted with your intentions not to be guided by your advice on a subject in which the happiness of my life must be concerned. I am perfectly convinced that the Duke of Oldenbourg's Character is such that could this be brought about it would be the properest situation and knowing your kindness shall leave it totally to you. And my dear Brother allow me to add

1813
that your affectionate behaviour has made
such an impression on my Heart that
whether this plan succeeds or not I shall
myself equally indebted to your friendship

Adieu my dear Brother

Your affectionate Sister & friend

Charlotte Augusta Matilda
