Many thanks my dearest Brother for  
your Letter and the affectionate expressions  
it contains. I hope that you are too  
well acquainted with my Heart not to  
be convinced how severe our parting would  
have been and am really grateful for  
your having saved me that additional  
pain. Last Night was dreadful to me  
but thanks to the Prince's kindness  
and attention I am calmer than I  
had any reason to expect. God Almighty  
Bless you my dear Brother and that  
you may enjoy every joy and happiness  
that this world can offer is the sincere  
wish my dear Brother.
