Duchess of Württemberg

Sir

I have many thanks to
return Your Majesty for your gracious Letter
of the 4 of September. I rejoice very much
at Your being at Weymouth and hope
the bathing will have its usual good effect
After all the fatigues Your Majesty has
undergone this Summer I should think
it doubly necessary as a preparation for
the Winter. Ours will now begin very
soon as about the 15th of October we
shall return to Stuttgart, which is very

necessary on account of the Fires, as having several additional people with us in the Country who do not reside in the Palace in Town, the expence would be much increased were we to remain here longer.

This is very right as in times like the present one cannot be sufficiently careful of all ones Actions. I shall however leave the Country with great regret as I had a most comfortable quiet life and have the opportunity of taking beautiful walks I have done wonders as I have taught all the Ladies to walk four or five miles at a time. At Shitgard I shall keep up my exercise though not so pleasantly

as there is only three walks which it is possible
to take near the Town and if it rains
two are impracticable. I hope that early in
the Spring we shall come back to Louisbourg.

Your Majesty is very gracious to mention
dear little Lady Mary Paret she must
be much improved since I had the
pleasure of seeing her and I am very
much pleased that she has not forgotten me.

I have taken the liberty to send Your
Majesty a Print painted in Oil which
was brought me the other day by a
great Print Seller from Manheim, he
had many to dispose of but this being
the best in my opinion I bought it

flattering myself that you would do me
the honour to accept of it. and place it
in Your Collection.

The Duke begs that I will present
his humble duty to Your Majesty, now
that hunting has begun he takes an
amazing deal of exercise, but his Court
continues pretty much the same.

I must now take my leave of Your
Majesty and have the honour to be
with the greatest respect
