Sir

Having had the honour
of writing to Your Majesty last
Week I should not have troubled
you again with a Letter had the
Duke not desired me to present
his humble Duty to Your Majesty
and to acquaint you that he
hears his Brother Prince Henry
intends going to England. The
Conduct of this Prince is so
bad that his Brother takes no
notice of him and we entreat
Your Majesty not to receive him.
Last Year he quitted the King

of Professor's Service and married
 an Actress, which he is trying to
 persuade the Emperor to create a
 Countess of the Empire, which the
 Duke has refused to consent to; as
 your Majesty will certainly see
 by this, that this Prince is really
 a disgrace to the family I
 flatter myself that you will grant
 our request.

The weather begins to be very
 sultry here, and I hope when
 your Majesty spends your next
 week at Hardeur that you will
 be able to enjoy both your
 hunting and farming. The Duke

is very much taken up with sowing
proving his Grounds. Above two
hundred of the Seeds from them are
come up and I hope will do very
well. It is singular that though
this Country is more South than
England many Plants which are
out the whole Winter at New are
destroyed if we attempt to treat
them in the same way.

I will now take up no more
of Your Majesty's time and
remain with great respect
