Sir

Having just heard
from my Brother that he is going
to leave Germany I cannot deny
myself the pleasure of writing
to Your Majesty and Congratulating
You on Your Recovery. The gracious
Message You honoured me with
through Elizabeth made me very
happy as it is a fresh proof
of Your constant goodness to me
which is most deeply felt by me
who am very dutifully attached

to Your Majesty. and have been
very wretched to hear that You
were ill I trust the Country Air
will strengthen Your Majesty and
that the Almighty will long
preserve You a blessing to us all

The Duke had intended to
have written to Your Majesty
but as I feared it might be
troublesome I undertook to
prevent his burrble duty to You
and take on my self this
apparent neglect which I thought
would avoid Your Majesty trouble

I cannot sufficiently express how much Affection and kindnes the Duke shewed me during the uneariness I underwent on account of Your Majesty. But thank God You are now quite well and I trust will be able to enjoy the Easter Week in the Country.

I will now take my leave and remain with the greatest Respect and attachment

Your Majesty's
Most dutiful Daughter
and devoted Subject
