Sir

As the Spring begins
so favourably I hope that Your
Majesty will enjoy Windsor very
much during the Easter week and
have the pleasure of seeing all
Your plantations and Farms
improve very much - The weather
being very fine we settled here two
Days ago and I am convinced
that Your Majesty with Your
accustomed goodness will be glad
to hear that I can again enjoy
comfortably my Garden and

watch the planting which I believe
 will much improve the new
 Ground the Duke has given me
 Though my little place can never
 boast much beauty which even
 its size does not admit of, it is
 of great use as it draws me much
 more out in the Air, and fills
 up many Hours pleasantly.

Yesterday Morning I spent in
 driving out with the Duke to
 see the new purchases he has
 made, which are great additions
 to the Garden; he has also

wraps
 down
 again
 no
 here
 burn
 the
 the
 rep
 no
 burn
 mu
 will
 it,

improved it very much by taking
down our old Opera House which
quite spoilt the view and was of
no use. From my first arrival
here I took a great dislike to this
 lumbering building and did every
thing in my power to persuade
the Duke to destroy it as the
repairs cost a great deal and to
no purpose.

I suppose that Your Majesty's
building at New will be very
much advanced and that You
will soon think of furnishing
it. May I entreat Your Majesty

whenever You have fixed on the
Colours of the Chairs to order one
of my Sisters to acquaint me
with it, as I am very anxious
to have the honour of embroidering
You a Screen.

I will now only add the
Dukes humble duty and remain
ever Your Majesty's

Most dutiful Daughter
and devoted Subject
Charlotte Augusta Matilda

Duchess of Brunswick

April 4. 1792
