My dear Mother

Though many Years
are pass'd since I had the happiness of
being indulg'd by a line from You and
that last Year You did not even send me
a little Message in answer to my Letter
I cannot neglect seizing on every fresh
opportunity of recalling myself to You
and trust notwithstanding Your silence
You will be glad to hear from a
Sister You have formerly shewn many
proofs of affection to, which are of
course ever present to my mind.

Being so long deprived of all news
from my dearest Family I hardly

know how to begin when I take up my
 Pen all subjects being interesting to me
 when they have long lost the charm of
 Novelty to those who being constantly
 at the Fountain head are not in the
 state of anxiety I am ever in about
 all my friends, and who can hardly
 judge of that situation never having
 been exposed to it. I trust that your
 health dear Mother is better than
 formerly and that you continue see
 bathing in the Summer which ever
 agreed with you, and do not neglect
 taking a great deal of exercise which
 is certainly necessary for us all.
 Much do I wish to have some

account of your dear little Charlotte who
is just come to the most interesting age
as this is the moment when her Mind
must open and her Character begin to
be formed; happy shall I be to hear
that she turns out every thing a fond
father can wish and that she may
be a blessing to her whole family and
at a very distant period looked up to
as a wise and good Queen.

The King desires me to present his
Compliments to you & his dear
Brother and believe me ever with
the sincerest Affection

Your most affectionate
Sister and Friend
Charlotte
